Portrait of king george iii

George, Prince of Wales, married Duchess Sophia Charlotte of Mecklenburg-Sterlitz in September 1761. A fortnight later they were crowned at Westminster Abbey and their coronation portraits were commissioned from Allan Ramsay, who had recently succeeded John Shackleton as Principle Painter in Ordinary. Horace Walpole considered Ramsay's coronation portrait to be superior to previous whole lengths, saying "this has more air, and is painted exactly from the very robes which the king wore at his coronation. The gold stuff and ermine are highly finished; rather too much, for the head does not come out as much as it ought." It was typical at this time to produce copies of portraits, yet it is recorded that Ramsay's studio completed 153 pairs, together with twenty-six versions of the king alone. Updated before 2020 Portrait by Allan Ramsay, c. 1761—62 4 June 1738 in London, England 29 January 1820 at Windsor, Berkshire, England George III (George William Frederick; 1738 - 1820) Portrait to come. See entry in Wikipedia. Charles Willson Peale, despite his devotion to the taxonomic and contemplative majesty of the natural world, nevertheless loved novelties and used all sorts of amusements to attract customers to his museum. He eventually resorted to hiring a popular musical performer who played five different instruments simultaneously, using all parts of his body. Following Peale's death the museum passed into the enterprising hands of P. T. Barnum, becoming part of his traveling circus — a romantic ending for an Enlightenment institution. © © Home / King George III NPG 223 Portrait Print 4-for-3 Extra small 102mm x 153mm Small 297mm x 210mm Medium 483mm x 329mm Large 615mm x 432mm Medium Canvas Shortest edge 297mm Images are printed in their original proportions, within a white border, on the paper of your choice. Please note that a copyright line is included beneath the image (except on the Extra Small Photo, Medium Matt Fine Art and Canvas options) and the dimensions listed above are for the paper size only. The Photo paper has a semi-gloss finish, ideally suited to reproductions of photographs, while the Art paper has a matt textured surface that works particularly well for reproductions of drawings, etchings and some paintings.
